

Photoshop® is the professional standard in desktop digital imaging for graphic and Web design, photography, and video. You can:

- Create original images or modify photos using a full assortment of painting, drawing, and retouching tools.
- Achieve sophisticated results by compositing images, text, and effects on hundreds of layers that you control by grouping into sets, colour coding, and locking.
- Improve the colour, contrast, and dynamic range of any image with a comprehensive set of professional colour-correction tools.
- Create and modify Web designs faster with multiple object selection, object grouping, and smart guides.
- Plus lots more ...
